Driving Innovation in the Lincoln MoneyGuard® Application Process

At Lincoln, our Leading-Edge Underwriting team is continuously assessing new opportunities to improve the new business experience for our Financial Professionals and clients.

Beginning in February 2026, Lincoln is partnering with Neurotrack, a leading provider of cognitive

impairment testing solutions, to pilot a new digital cognitive screening assessment for Lincoln

MoneyGuard clients age 61 and up¹. During the pilot period, clients will be sent a link to complete a short online assessment at the end of the traditional cognitive phone interview. This assessment should be completed within 48 hours of receipt and can be done in as little as five minutes.

At the end of the pilot, any updates will be communicated through the Life Lincoln Leader. If you have

any questions, please reach out to your dedicated Lincoln underwriting and new business team.
